ERRATUM FOR CIA/PIR-63052

1. Figure 10 of CIA/PIR-63052, Cratering Event at Launch Complex D, Tyuratam Missile Test Center (TTMC), USSR,   of May 1966 has been revised to include the proper locations and symbols for spot elevations. The horizontal accuracy factor should read + 5%. The revised Figure 10 attached to this erratum sheet is to be inserted in CIA/PIR-63052. 25X

2. The following measurement statements were omitted from this report: All measurements of Soviet installations in this report have been made by NPIC Technical Intelligence Division with the exception of those measurements designated as approximate. All of the NPIC/TID measurements in this report are considered to be accurate within + 10 feet with the exception of those in Figure 10.
